

Dear all,  
we are looking forward to have you here! We will send a programme and last informations for your trip to germany soon.  
Today you will have some other information on our projekt.  
In June we worked on a frame which is built out of wood and twigs. The children had a lot of fun with this work.  
Now they choose a place in nature to hang it on. So you can make sure you see a little space of nature more intensive.  
Every week we choose another place. Also the parents and visitors can see the frame when they come to us.  
I hope you like the idea and maybe you can make a own frame in your kindergarden/school.  
Have a nice time! See you in 4 weeks!!!  
Yours Sibylle
